

Guide to the ČSOB Goodwill Card

The ČSOB Goodwill Card allows you to contribute to good causes through payment transactions and help improve the world around you.

What does the Goodwill Card offer you?

- The prestigious Mastercard® World Elite card, thanks to which the bank and Mastercard donate 0.6% of every payment made at a merchant to beneficial projects.
- The option to contribute to charitable projects from your own funds at a pre-selected percentage (0.3%, 0.5% or 0.8%).
- Goodwill Card Family Travel Insurance.
- Insurance against the loss or theft of the card.
- Legal protection insurance.
- Membership of the Mastercard® Priceless Prague programme.
- LoungeKey – access to airport lounges.
- Free ATM withdrawals abroad.
- The option to digitise and add the card to Apple Pay, Google Pay, Garmin Pay or Xiaomi Pay.

Fast and secure payments

Your new payment card is contactless; no PIN is required up to CZK 500. You can also try our contactless ATMs or the CashBack service, where you can withdraw cash for free directly at the cash desks of selected merchants.

Pay by mobile phone or smartwatch

With Apple Pay, Google Pay, Garmin Pay and Xiaomi Pay, you can pay in stores/at e-shops and withdraw cash from contactless ATMs. Safely and quickly. To activate the service, simply enter your debit or credit card details into Apple Wallet, Google Pay, Garmin Connect or Zepp Life, confirm with an SMS code, and you are ready to use it. We recommend that you have online payments enabled on your card when you activate the service. For more information, see www.csob.cz/xpay.

Confirm card payments online easily in the application

When paying by card online, you can easily confirm your payments in our ČSOB Smart Key mobile application. You can download the application for free to your mobile phone and activate it. Wherever you have been used to an SMS confirmation code, you will get a notification on your phone instead, and you confirm it with your fingerprint, Face ID or PIN. You will find it just as easy to confirm requests in Internet Banking. For more information, see www.csob.cz/smartklic.

Sometimes you can pay online without a confirmation

We have introduced intelligent authentication for online card payments (called RBA, Risk-Based Authentication) so you will not have to confirm them for selected online purchases. Whether or not a confirmation is needed is evaluated by our systems using smart algorithms – by assessing the merchant's credibility, the purchase amount and other payment parameters. The security of your card is our priority. If we become aware that an unusual or otherwise suspicious transaction has occurred on your account, we will contact you. This verification helps to improve payment security and the quality of our services.

Payment card loss and theft insurance

The insurance protects not only your card but also your personal belongings:

- wallet, cash, personal documents, keys, mobile phone,
- covers financial losses resulting from misuse of the card and the loss of your mobile phone and its subsequent misuse to make card payments online,
- covers the cost of reissuing a PIN, express issuance of a new payment card and issuance of a replacement card or replacement cash abroad.

Legal protection insurance

The insurance includes:

- legal assistance in criminal or administrative proceedings following a car accident,
- legal assistance in administrative proceedings relating to the operation of a vehicle,
- recovery of compensation for damage caused in connection with driving a vehicle.
